EXPERIENCE

SpiceFactory, Belgrade — *Software Engineer*

June 2021 - PRESENT

Worked on multiple diverse projects, gaining hands-on experience with technologies such as Node.js, Express, React, AWS, Google Cloud, JavaScript, TypeScript, Next.js, Docker, Scala, React Native, SQL and NoSQL databases.

Collaborated closely with cross-functional teams, including design, marketing, and business, to understand project requirements thoroughly.

Ensured quality assurance through meticulous testing practices, employing tools like Jest and Puppeteer.

Played a key role in utilizing agile development methodologies to deliver projects on time, meeting client expectations effectively.

CODE by COMTRADE, Belgrade — *QA Lecturer / Assistant*

March 2021 - June 2021

Educated students in manual and automated testing using Python and Selenium, fostering practical skills in software quality assurance.

MarkLab, Belgrade — *Web Developer*

February 2020 - August 2020

Held a client-facing and development role, optimizing business workflow and enhancing productivity.

Multiple Clients, Belgrade — *Freelance web developer*

July 2014 - PRESENT

Provided Web Development, UI/UX, and SEO services to diverse clients, enhancing online visibility and user experience.

EDUCATION

MEF Fakultet, Beograd

October 2019 - PRESENT

Dedicated student of software development, actively refining skills to achieve mastery.

ABOUT

Dedicated and adaptable software engineer with a diverse skill set and a proven ability to transform intricate concepts into user-friendly solutions. Experienced in collaborative, interdisciplinary settings, I excel in bridging technical and non-technical gaps, enhancing project efficiency. Committed to ongoing learning, I stay updated with industry trends, fostering continuous professional growth.
